5. An explanation of the rule, including the agency's reasons for initiating the rule:

These amendments will amend existing rules (R14-2-402 and R14-2-602), both entitled "Certificate of Convenience and Necessity" ("CC&N"). The proposed amendments and changes to these rules are designed to provide the Arizona Corporation Commission and the Commission's Staff more information in the application for a new CC&N or for an extension of a CC&N. This additional information will aid Staff in its analysis and the Commission in its determination of the public interest when granting or denying a CC&N or a CC&N extension for water service and sewer service.

6. A reference to any study that the agency proposes to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study, any analysis of the study and other supporting material:

None

7. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

8. The preliminary summary of the economic, small business, and consumer impact:

NOTE - The Arizona Corporation Commission is exempt from the requirements of A.R.S. § 41-1055 relating to economic, small business, and consumer impact statements. See A.R.S. § 41-1057(2). However, under A.R.S. § 41-1057(2), the Arizona Corporation Commission is required to prepare a "substantially similar" statement.

Companies providing water service or wastewater service may incur additional costs resulting from the requirements for notification to affected landowners, developers and nearby municipalities and nearby water

and wastewater service providers of an application for a new CC&N or an extension to a CC&N. Utilities may incur additional costs resulting from additional research and other communications with landowners. However, by providing this additional information in the application, applicants may incur lower organizational costs and may reduce regulatory costs thereby reducing the upward pressure on rates of customers of water and wastewater utilities which are forming or expanding. The rule change amendments should reduce the time period between the date of application and the date of a final order in the matter which would allow for faster development of the property.

9. The name and address of agency personnel with whom persons may communicate regarding the accuracy of the economic, small business, and consumer impact statement:

Name: Robin Mitchell, Esq.

Attorney, Legal Division, Arizona Corporation Commission

Address: 1200 West Washington Street

10. The time, place, and nature of the proceedings for the making, amendment, or repeal of the rule, or if no proceeding is scheduled, where, when, and how persons may request an oral proceeding on the proposed rule:

Public comment will be held on two separate dates and two separate locations: 1) April 14, 2008, beginning at 10:00 a.m. and in Room 222 in the Tucson offices of the Arizona Corporation Commission located at 400 West Congress Street, Tucson, Arizona 85701, or 2) April 15, 2008, beginning at 10:00 a.m. in the Hearing Room of the Arizona Corporation Commission located at 1200 West Washington, Phoenix, Arizona 85007. Please reference docket number ACC-00000A-05-0613 on all documents.
